

Vertical balers

Multi Chamber MC4

SMALL MULTI CHAMBER BALER

The MC4 multi chamber baler has been designed to serve customers with smaller quantities of waste.

With two chambers you have the possibility of sorting your waste before compressing, eg. using one chamber for cardboard and the other for plastic.

Both chambers are operated by a common press section, which is easily moved from one side to the other.

Technical specifications

Press force (t)	4
Power supply	1x230V 50 Hz 10A
Motor (kW)	1.1
Noise level (dB)	65-68
Cycle time (sec)	14
Dimensions LxWxH (mm)	1720 x 900 x 2180
Weight (kg)	585
Filling opening WxH (mm)	700 x 500
Filling height (mm)	1240
Chamber height (mm)	1090
Stroke (mm)	750
Bale size WxDxH (mm)	700 x 500 x 700
Bale weight cardboard (kg)	40-60
Bale weight plastic (kg)	50-70

1 Compact your waste and eject the finished bale. **2** Remove and store the bale until collection. **3** The machine has a full-indicator, which tells you when the chamber is full and ready for baling. **4** The horizontal handle gives an ergonomical working posture.

- **Effective operation**
With a fast cycle time
- **Rational sorting**
Saving time and space
- **Easy move of press section**
Due to horizontal handle
