Your dealer:

NOT A DROP TO WASTE

Constructed to store water and chemicals in agriculture, fruit and wine growing industry, manufacturing companies, etc.

Specifications:

- overground installation,
- single skinned (DC) or double skinned (CDC) version,
- easily handleable thanks to their low weight (lifting eyes on the upper part - to be used for empty tank only),
- outlet with 2" screw connection,
- made of UV stabilized polyethylene (eliminates colour fading), food contact certified and resistant to majority of aggressive chemicals,
- seamless technology guarantees perfect liquid tightness the whole tank lifetime through,
- corrosion-resistant and maintenance-free,
- DC version available in milky/green/blue colour, CDC v version in yellow,
- fully recyclable,
- 5-year guarantee.

Technical parameters:

Type	Volume (l)	Dimensions (diameter x height, mm)	Inspection inlet (diameter, mm)	Filling inlet (diameter, mm)
DC 5000	5000	2215 x 1395	540	112
DC 7000	7000	2215 x 1990	540	112
DC 9000	9000	2435 x 2334	380 - lockable	380
CDC 7000	7000	2435 x 2334	540	112

Options:

- escape valve DN50 (DC types only),
- screwed joint with external thread in the upper part of the tank,
- fixtures for mutual tank connection (DC types only),
- electronic wireless liquid-level monitoring.
