...snow will not surprise you

Sandboxes are designed for storing salt, grit or sand on public or private locations. Robust anti-vandal construction will keep your material safe and dry where you need it most. Made of GRP (fibreglass with high impact resistance) for superior shape stability, weather and rust resistance. Lid hinges made of stainless steel. Various options as locks, wheels, fork-lift pockets or theft protection available upon request. Most popular in highly visible yellow color, other colors also available. Logos or numbers are laminated straight into the body surface and will not suffer from UV and weather conditions. 5-year product guarantee.

Type	Content (l)	Size (l×w×h , mm)	Weight (kg)
SBA 110	110	695×535×540	12
SBA 220	220	885×585×650	15
SBA 400	400	1200×585×650	24
SBA 550	550	1325×980×740	25
SBA 750	750	1325×980×930	30
SBA 1100	1100	1635×1220×990	50
