

**FOR USED CLOTHING AND SHOES**

These metal containers are specifically designed to collect used clothing and shoes. The quality of materials and procedures used in production is guarantee long lifespan of all components.

All containers are made of galvanized steel and powder coated according to RAL. Sheet thickness is optional at 1.0 – 1.25 – 1.5 mm. The customer's logo or user instructions are applied by respective label on the container. Moreover, additional anti-graffiti protective coating can be applied. To protect the deposited items, multiple types of safety mechanisms are available.

Containers can be further customised based on the customer's wishes.
